

Enstar Limited

Bermuda is home to our parent company, Enstar Group Limited and to Enstar Limited, our Bermuda-based service company. Enstar Limited was formed in 1995 to manage insurance and reinsurance businesses in run-off mainly for Bermuda and U.S. companies. Our portfolio consists of companies owned by the group and companies managed for third party clients. In addition, Enstar Limited provides corporate management services to Enstar Group Limited.

Our key objectives & strategy

In relation to the portfolios managed, we aim to provide effective and efficient run-off management, using our wealth of experience and knowledge in the run-off arena to provide innovative solutions to the challenges faced.

With regard to Enstar Group Limited, we aim to provide highly specialised and professional services which allow the executive management to effectively control the operations of the group and continue with the successful track record of growth achieved in previous years.

Our services

We provide a wide variety of specialised services to our managed run-off portfolios, including:

- Identification, quantification and provision of finality solutions for releasing capital
- Accounting and regulatory reporting functions
- Tailored management reporting for third party clients
- A full range of consultancy services, ranging from full-service run-off management to bespoke solutions such as claims inspection, claims validation and settlement, reinsurance asset collection and IT consulting services for both the corporate and Lloyd's markets.

We work closely with our fellow Enstar companies throughout the world to deliver global solutions for our clients.

In addition to Bermuda, our principal global locations are based in the UK, USA and Australia.

Enstar Limited also provides the following corporate functions to Enstar Group Limited:

- Financial and SEC reporting
- Mergers & Acquisitions
- Actuarial services
- Investment and treasury

Our track record

Our run-off professionals have a wealth of experience and industry contacts and have been actively involved over the years with all of the major global market and claims issues that have been experienced by the insurance industry across all lines and markets.

We have extensive experience of discontinued underwriting years, dating back to the 1950's through all subsequent underwriting cycles, both in the global corporate and Lloyd's markets. As we have grown, we have developed significant in-house expertise spanning all the major insurance disciplines covering financial, actuarial, legal and technical matters.

> Enstar Group Limited brings global expertise to identifying, quantifying and rapidly releasing capital.
