## About Enstar

Enstar is a NASDAQ-listed leading global (re)insurance group that offers capital release solutions through its network of group companies in Bermuda, the United States, the United Kingdom, Continental Europe and Australia. A market leader in completing legacy acquisitions, Enstar has acquired over 115 companies and portfolios since its formation. For further information about Enstar, see [www.enstargroup.com](http://www.enstargroup.com).

## Basis of Presentation

In this Investor Financial Supplement, the terms "we," "us," "our," "Enstar," or "the Company" refer to Enstar Group Limited and its consolidated subsidiaries. All information contained herein is unaudited. Unless otherwise noted, amounts are in millions of U.S. Dollars, except for share and per share amounts. This Investor Financial Supplement is being provided for informational purposes only. It should be read in conjunction with documents filed by Enstar with the U.S. Securities and Exchange Commission, including its Annual Reports on Form 10-K and its Quarterly Reports on Form 10-Q.

## Non-GAAP Financial Measures

In addition to our key financial measures presented in accordance with GAAP, we present other non-GAAP financial measures that we use to manage our business, compare our performance against prior periods and against our peers, and as performance measures in our incentive compensation program. These non-GAAP financial measures provide an additional view of our operational performance over the long-term and provide the opportunity to analyze our results in a way that is more aligned with the manner in which our management measures our underlying performance. The presentation of these non-GAAP financial measures, which may be defined and calculated differently by other companies, is used to enhance the understanding of certain aspects of our financial performance. It is not meant to be considered in isolation, superior to, or as a substitute for the directly comparable financial measures prepared in accordance with GAAP.

Some of the adjustments reflected in our non-GAAP measures are recurring items, such as the exclusion of adjustments to net realized and unrealized (gains)/losses on fixed income securities recognized in our income statement, the fair value of certain of our loss reserve liabilities for which we have elected the fair value option, and the amortization of fair value adjustments. Management makes these adjustments in assessing our performance so that the changes in fair value due to interest rate movements, which are applied to some but not all of our assets and liabilities as a result of preexisting accounting elections, do not impair comparability across reporting periods. It is important for the readers of our periodic filings to understand that these items will recur from period to period. However, we exclude these items for the purpose of presenting a comparable view across reporting periods of the impact of our underlying claims management and investments without the effect of interest rate fluctuations on assets that we anticipate to hold to maturity and non-cash changes to the fair value of our reserves. Similarly, our non-GAAP measures reflect the exclusion of certain items that we deem to be nonrecurring, unusual or infrequent when the nature of the charge or gain is such that it is not reasonably likely that such item may recur within two years, nor was there a similar charge or gain in the preceding two years. This includes adjustments related to bargain purchase gains on acquisitions of businesses, net gains or losses on sales of subsidiaries, net assets of held for sale or disposed subsidiaries classified as discontinued operations, and other items that we separately disclose. Refer to pages [11](#) to [18](#) for further details.

## Investment Composition

In certain instances, U.S. GAAP requires, in part, that invested assets be classified based upon the legal form of the investment which may not correspond to management's view of the underlying economic exposure. For example:

1. Enstar has certain investments in public shares of exchange traded funds ("ETFs") where the underlying exposure of the ETF is investment grade fixed income securities, and Enstar also has certain privately held equities which management evaluates based on the underlying economic exposures. U.S. GAAP requires that these investments be classified as "Equities".
2. Enstar has certain private equity funds that are collectively held in a limited partnership, which management evaluates based on the nature of the underlying investments within these funds. U.S. GAAP requires that the investment be classified as "Private equity funds" within "Other Investments".

Where relevant, we have disclosed the underlying economic exposure of our investments in order to be consistent with the manner in which management views the underlying portfolio composition. Refer to pages [19](#) and [20](#) for further details.

## Cautionary Statement

This Investor Financial Supplement contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include statements regarding the intent, belief or current expectations of Enstar and its management team. Investors are cautioned that any such forward-looking statements speak only as of the date they are made, are not guarantees of future performance and involve risks and uncertainties, and that actual results may differ materially from those projected in the forward-looking statements as a result of various factors. Important risk factors regarding Enstar can be found under the heading "Risk Factors" in our Form 10-K for the year ended December 31, 2022 and are incorporated herein by reference. Furthermore, Enstar undertakes no obligation to update any written or oral forward-looking statements or publicly announce any updates or revisions to any of the forward-looking statements contained herein, to reflect any change in its expectations with regard thereto or any change in events, conditions, circumstances or assumptions underlying such statements, except as required by law.

# Non-GAAP Measures

Non-GAAP Measure	Definition	Purpose of Non-GAAP Measure over GAAP Measure
<a href="#"><u>Adjusted book value per ordinary share</u></a>	Total Enstar ordinary shareholders' equity  Divided by  Number of ordinary shares outstanding, adjusted for: <i>-the ultimate effect of any dilutive securities on the number of ordinary shares outstanding</i>	Increases the number of ordinary shares to reflect the exercise of equity awards granted but not yet vested as, over the long term, this presents both management and investors with a more economically accurate measure of the realizable value of shareholder returns by factoring in the impact of share dilution.  We use this non-GAAP measure in our incentive compensation program.
<a href="#"><u>Adjusted return on equity (%)</u></a>	Adjusted operating income (loss) attributable to Enstar ordinary shareholders divided by adjusted opening Enstar ordinary shareholder's equity	Calculating the operating income (loss) as a percentage of our adjusted opening Enstar ordinary shareholders' equity provides a more consistent measure of the performance of our business by enabling comparison between the financial periods presented.
<b>Adjusted operating income (loss) attributable to Enstar ordinary shareholders (numerator)</b>	Net earnings (loss) attributable to Enstar ordinary shareholders, adjusted for: <i>-net realized and unrealized (gains) losses on fixed maturities and funds held-directly managed,</i> <i>-change in fair value of insurance contracts for which we have elected the fair value option <sup>(1)</sup>,</i> <i>-amortization of fair value adjustments,</i> <i>-net gain/loss on purchase and sales of subsidiaries (if any),</i> <i>-net earnings from discontinued operations (if any),</i> <i>-tax effects of adjustments, and</i> <i>-adjustments attributable to noncontrolling interests</i>	We eliminate the impact of net realized and unrealized (gains) losses on fixed maturities and funds-held directly managed and the change in fair value of insurance contracts for which we have elected the fair value option, as: <ul style="list-style-type: none"> <li>• we typically hold most of our fixed maturities until the earlier of maturity or the time that they are used to fund any settlement of related liabilities which are generally recorded at cost; and</li> <li>• removing the fair value option improves comparability since there are limited acquisition years for which we elected the fair value option.</li> </ul> <p>Therefore, we believe that excluding their impact on our earnings improves comparability of our core operational performance across periods.</p> <p>We include fair value adjustments as non-GAAP adjustments to the adjusted operating income (loss) attributable to Enstar ordinary shareholders as they are non-cash charges that are not reflective of the impact of our claims management strategies on our loss portfolios.</p> <p>We eliminate the net gain (loss) on the purchase and sales of subsidiaries and net earnings from discontinued operations, as these items are not indicative of our ongoing operations.</p> <p>We use this non-GAAP measure in our incentive compensation program.</p>
<b>Adjusted opening Enstar ordinary shareholders' equity (denominator)</b>	Opening Enstar ordinary shareholders' equity, less: <i>-net unrealized gains (losses) on fixed maturities and funds held-directly managed,</i> <i>-fair value of insurance contracts for which we have elected the fair value option <sup>(1)</sup>,</i> <i>-fair value adjustments, and</i> <i>-net assets of held for sale or disposed subsidiaries classified as discontinued operations (if any)</i>	
<a href="#"><u>Adjusted total investment return (%)</u></a>	Adjusted total investment return (dollars) recognized in earnings for the applicable period divided by period average adjusted total investable assets.	Provides a key measure of the return generated on the capital held in the business and is reflective of our investment strategy.
<b>Adjusted total investment return (\$) (numerator)</b>	Total investment return (dollars), adjusted for: <i>-net realized and unrealized (gains) losses on fixed maturities and funds held-directly managed; and</i> <i>-unrealized (gains) losses on fixed maturities, AFS included within OCI, net of reclassification adjustments and excluding foreign exchange.</i>	Provides a consistent measure of investment returns as a percentage of all assets generating investment returns.  We adjust our investment returns to eliminate the impact of the change in fair value of fixed maturities (both credit spreads and interest rates), as we typically hold most of these investments until the earlier of maturity or used to fund any settlement of related liabilities which are generally recorded at cost.
<b>Adjusted average aggregate total investable assets (denominator)</b>	Total average investable assets, adjusted for: <i>-net unrealized (gains) losses on fixed maturities, AFS included within AOCI</i> <i>-net unrealized (gains) losses on fixed maturities, trading</i>	

<sup>(1)</sup> Comprises the discount rate and risk margin components.

# Non-GAAP Measures (continued)

Non-GAAP Measure	Definition	Purpose of Non-GAAP Measure over GAAP Measure
<a href="#">Adjusted run-off liability earnings (%)</a>	Adjusted PPD divided by average adjusted net loss reserves.	Calculating the RLE as a percentage of our adjusted average net loss reserves provides a more meaningful and comparable measurement of the impact of our claims management strategies on our loss portfolios across acquisition years and also to our overall financial periods.
<b>Adjusted prior period development (numerator)</b>	<p>Prior period net incurred losses and LAE, adjusted to:</p> <p><i>Remove:</i></p> <ul style="list-style-type: none"> <li>-Legacy Underwriting and Assumed Life operations</li> <li>-amortization of fair value adjustments,</li> <li>-change in fair value of insurance contracts for which we have elected the fair value option<sup>(1)</sup>,</li> </ul> <p><i>and</i></p> <p><i>Add:</i></p> <ul style="list-style-type: none"> <li>-the reduction/(increase) in estimates of net ultimate liabilities and reduction in estimated future expenses of our defendant A&amp;E liabilities.</li> </ul>	<p>We use this measure to evaluate the impact of our claims management strategies because it provides visibility into our ability to settle our claims obligations for amounts less than our initial estimate at the point of acquiring the obligations.</p> <p>The following components of periodic recurring net incurred losses and LAE and net loss reserves are not considered key components of our claims management performance for the following reasons:</p> <ul style="list-style-type: none"> <li>• Prior to the settlement of the contractual arrangements, the results of our Legacy Underwriting segment were economically transferred to a third party primarily through use of reinsurance and a Capacity Lease Agreement<sup>(2)</sup>; as such, the results were not a relevant contribution to Adjusted RLE, which is designed to analyze the impact of our claims management strategies;</li> <li>• The results of our Assumed Life segment relate only to our prior exposure to active property catastrophe business; as this business was not in run-off, the results were not a relevant contribution to Adjusted RLE;</li> <li>• The change in fair value of insurance contracts for which we have elected the fair value option<sup>(1)</sup> has been removed to support comparability between the two acquisition years for which we elected the fair value option in reserves assumed and the acquisition years for which we did not make this election (specifically, this election was only made in the 2017 and 2018 acquisition years and the election of such option is irrevocable); and</li> <li>• The amortization of fair value adjustments are non-cash charges that obscure our trends on a consistent basis.</li> </ul> <p>We include our performance in managing claims and estimated future expenses on our defendant A&amp;E liabilities because such performance is relevant to assessing our claims management strategies even though such liabilities are not included within the loss reserves.</p> <p>We use this measure to assess the performance of our claim strategies and part of the performance assessment of our past acquisitions.</p>
<b>Adjusted net loss reserves (denominator)</b>	<p>Net losses and LAE, adjusted to:</p> <p><i>Remove:</i></p> <ul style="list-style-type: none"> <li>-Legacy Underwriting and Assumed Life net loss reserves</li> <li>-current period net loss reserves</li> <li>-net fair value adjustments associated with the acquisition of companies,</li> <li>-the fair value adjustments for contracts for which we have elected the fair value option<sup>(1)</sup></li> </ul> <p><i>and</i></p> <p><i>Add:</i></p> <ul style="list-style-type: none"> <li>-net nominal defendant A&amp;E liability exposures and estimated future expenses.</li> </ul>	

<sup>(1)</sup> Comprises the discount rate and risk margin components.

<sup>(2)</sup> The reinsurance contractual arrangements (including the Capacity Lease Agreement) described in Note 5 to our consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2022 were settled during the second quarter of 2023. As a result of the settlement, we do not expect to record any transactions in the Legacy Underwriting segment in 2023.
